Session Descriptions and Pricing

2024

Senior Session

And just like that, graduation is around the corner! Mark the memory of this milestone with this 90-minute outdoor session. We'll take a wide variety of shots with clothing and location changes as time allows. In the end, you will have a large gallery of images to choose from. Session fee includes 15 digital files.

\$275

Traditional Family

The session includes up to 45 minutes of my creative services for your family's portraits. The aim of the session is to capture images of the family (up to 5 people), the children as a group, parents as a pair, and individual pictures of each child. If time allows, I may also snag some other groupings! The session fee includes your purchase of 15 digital files of edited images which you select from your gallery on the Catch & Release website. Additional people and pets can be added to your session; see the Further Pricing section below for details.

\$250

Mini Family

The scaled back version of the Traditional Family session. This session includes up to 20 minutes of shooting time and 5 digital files.

\$125

Custom Sessions Available

If you are looking for multi-generational, or other special sessions, please contact me for pricing.

How Does It Work?

I will meet you and your family at an agreed upon time and location in the Vermillion area. After your session, I will edit that which I believe are the best shots and make them accessible to you in a private gallery on the Catch & Release website. From these, you will select the images to fulfill their session package. Selected digital files are made available for download from the Catch & Release website. Please note the number of digital files included in the purchase of your session package.

Further Pricing Information

6.5% sales tax applies to all fees and sales.

Additional persons or pets can be added to your session for \$25 each.

In all sessions, additional files can be purchased for \$10 each.
